The Transformative Nature of Marriage

"Marriage is a revelation and a mystery. We see in it the complete transformation of a human being, the expansion of his personality, fresh vision, a new perception of life, and through it a rebirth into the world in a new plenitude."

(Fr. Alexander Elchaninov, *The Diary of a Russian Priest*)

*What a beautiful quotation on marriage!
Discuss with your spouse how marriage has
been an instrument for transformation/growth in
your life and what you can do together to more
fully realize, by the grace of God, the potential
marriage offers for "rebirth" in our lives.*
