MATH AND SCIENCE WORKSHOPS April 12, 13 & 21, 2010

The *Direct Archdiocesan Office of Education* organized recently workshops on **Math** and **Science** for the teachers serving in the Greek Orthodox parochial day schools in New York.

51 teachers and administrators benefited from these hands-on workshops, which were held on April 12, 13 & 21, at **St. Demetrios School** in Astoria. In Science, participants were introduced to *sorting classification*; exploring colors and light; magnets, nature, and shadows. In Math, participants were introduced to *sorting and counting*; size and comparison; addition and subtraction; measurement and attributes.

The Greek Orthodox parochial day schools in New York received educational materials worth \$17,850.00 paid by federal funds earmarked for this purpose.

The workshops were organized with the collaboration of *Childcraft Co.*, a licensed by the New York City Department of Education vendor, which does staff development and sells educational materials.
