| **GRDES: Pre-K - K** | **Guiding Young Children’s Behavior in the Early Childhood Classroom**  
Dr. Patricia A. Vardin  
Chair Early Childhood Education  
Manhattanville College | **Strategies for Teaching Young Children**  
The focus of this presentation will be on examining a variety of teaching and learning strategies that teachers can use in the early childhood classroom. The presentation will include video clips and group discussion. |
| **GRDES: Pre-K – 2** | **Playful Science Activities for Young Children**  
Dr. Smita Guha  
School of Education  
St. John’s University | **Mathematics Everywhere**  
This workshop is about mathematics that exists everywhere and in our learning environment. The presenter will engage the teachers in hands-on activities that would reflect the topic. The presentation will include the use of tangrams and attribute pieces. |

In this workshop, teachers will explore methods of guiding young children’s social interaction in the classroom as well as specific ways to deal with children’s challenging behavior. Ways to foster self-regulation and pro-social behavior will also be addressed. The workshop will include video clips, case studies, and small group interaction.

Children learn by doing. Hands-on approach towards science activities could facilitate in children’s learning process. This workshop will present several science activities with household materials that children could perform with minimal guidance from teachers.

<td><strong>GRADES: K – 3rd</strong>&lt;br&gt;Dr. Joanne Robertson&lt;br&gt;Associate Professor&lt;br&gt;School of Education&lt;br&gt;St. John’s University</td>
<td><strong>Literature That Engages K-3rd Grade Students</strong>&lt;br&gt;In this interactive workshop, Dr. Robertson will share a part of her extensive collection of picture books for the primary grades, and demonstrate the ways read-alouds can be integrated into an existing literacy program to motivate and inspire K-3rd grade writers. Participants will receive an annotated bibliography introducing each book, highlighting teaching points, and suggesting further supplemental readings. Teachers are encouraged to bring their favorite read-aloud book to this session, to enrich and extend our discussion.</td>
<td><strong>Literature That Engages K-3rd Grade Students</strong>&lt;br&gt;<strong>CONTINUED</strong></td>
</tr>
<tr>
<td><strong>ALL GRADES</strong>&lt;br&gt;Dr. Sharon Freedman&lt;br&gt;New York City&lt;br&gt;Department of Education</td>
<td><strong>Student Assessment: Preparing for State Exams</strong>&lt;br&gt;We work hard to plan great lessons, but how can we be sure that our students understood or mastered the content we taught? With the results being measured in high stake tests, it's beneficial to have the right tools in assessing whether our students &quot;got it&quot;. This ultimately helps us understand what needs to be taught again, or taught differently. This workshop will provide you with some assessment concepts and tools that will help your students do well on the standardized tests.</td>
<td><strong>Student Assessment: Preparing for State Exams</strong>&lt;br&gt;<strong>TO BE REPEATED</strong></td>

</tr>
<tr>
<td><strong>ALL GRADES</strong></td>
<td><strong>Comparing Elementary and Secondary School Literacy Tasks</strong>&lt;br&gt;This workshop will address reasons for the “fourth grade reading slump” that affects some readers. The nature of reading and writing tasks and textual material will be compared at elementary and secondary school and solutions will be suggested. Attendees will have greater knowledge of the differences and similarities of literacy tasks at all grade levels.</td>
<td><strong>The Role of Motivation in Literacy Across the Grades</strong>&lt;br&gt;This workshop will discuss causes for low motivation for literacy tasks and some ways to address this issue. Attendees will become more sensitive to the complex and situational nature of motivation and ways to enhance low motivation.</td>
</tr>
